

GIDEON LENGE

Full-Stack Engineer | Frontend Developer | AI & Web/App Systems

Johannesburg, South Africa • gideonlenge96@gmail.com • (+27) 815 892 060 • [GitHub](#) • [Portfolio](#) • [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 4 years of experience building responsive, user-focused web applications and 2 years of professional experience delivering AI-powered and multilingual platforms. Skilled in React, TypeScript, JavaScript, HTML, CSS, and backend technologies including Node.js, Python, C#, Spring Boot, and Java.

Experienced in creating scalable solutions, integrating APIs, and transforming ideas into intuitive digital experiences. Improved user engagement by up to 60% through intentional UI/UX redesigns and contributed to a multilingual literacy game application tested by 500+ users. Currently working as a frontend engineer in an NDA startup, developing innovative AI-driven products for real-world users.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, C#, Java, HTML5, CSS3, SQL, Spring Boot
- **Frameworks & Libraries:** React, Node.js, Tailwind CSS, REST API Development
- **Frontend & UI/UX:** Responsive Web Design, User-Centred Interface Development, UI/UX Redesign, Component-Based Architecture, Accessibility-Focused Design
- **AI & Platform Development:** AI Model Integration, AI-Powered Feature Development, Multilingual Application Development, Intelligent User Experiences
- **Backend & Integration:** API Integration, Backend Service Development, Data Handling, Cross-Platform Application Support
- **Tools & Infrastructure:** Git, Linux, Bash, Version Control, Remote Collaboration, Development Workflows
- **Software Engineering Concepts:** State Management, Scalable Frontend Architecture, RESTful Services, Agile Development, Cross-functional Team Collaboration
- **Product & Experience Development:** User Engagement Optimization, UX Improvements, Prototype-to-Production Delivery, Real-World User Testing (500+ users) s

PROFESSIONAL EXPERIENCE

Frontend Developer | BulaBooks | Jan 2025 – Present

- Developed and optimized a multilingual literacy game application, supporting real-world testing with 500+ users to improve usability, engagement, and learning experiences.
- Design and build reusable UI components using React, TypeScript, C#, and Godot (game engine), improving consistency across digital experiences and interactive platforms.
- Integrated AI models and C#-based APIs to support a multilingual platform, enabling users to interact with applications in their preferred language and improving accessibility.
- Redesigned user interfaces and user flows with a stronger focus on intentional UI/UX principles, contributing to improved user engagement of up to 60%.
- Implement and maintain API integrations between frontend applications and backend services, ensuring reliable data flow and system functionality.

Freelance Web Developer | Upwork | Jan 2022 – Oct 2023

- Built and designed custom websites for small businesses and organizations, delivering tailored digital solutions based on client needs.
- Developed intentional, scalable, and responsive user interfaces using HTML, CSS, and JavaScript with a focus on usability and clean structure.
- Translated client requirements into functional web products on demand, iterating based on feedback to ensure alignment with business goals.
- Managed end-to-end project delivery independently across multiple concurrent client engagements, from planning to deployment.

PROJECT EXPERIENCE

Web Application & Interface Projects *2024 – 2025*

- Built responsive web applications using React, TypeScript, JavaScript, HTML, CSS, and Tailwind CSS with a focus on reusable components and clean UI design.
- Developed structured, mobile-first interfaces with attention to usability, performance, and maintainability.
- Worked with API integrations, state-driven UI, and debugging to improve functionality and user experience.

Projects

- **E-commerce Clothing Store**
A responsive online store with payment integration, product gallery management, and a smooth shopping experience focused on usability and mobile-first design.
- **Church Management Platform (In Progress)**
A web app for tracking Sunday attendance and sending announcements to 200+ users, improving communication and record-keeping.
- **QR Code Generator Tool**
A fast utility tool for generating QR codes for events and businesses to quickly share links and information in real time.

COMMUNITY & OPENSOURCE

Digital Literacy Coach | Makers Valley | Johannesburg *Nov 2022 – Sep 2023*

- Taught basic computer and internet skills to senior citizens in an underserved community.
- Communicated technical concepts in simple, accessible language tailored to non-technical audiences.
- Assisted users in navigating software interfaces and resolving everyday digital challenges.

EDUCATION

WeThinkCode_ *Completed Sep 2023 -Dec 2025*

Higher Certificate in Software Engineering — Java, Python, JavaScript

ALX *Completed Feb 2021 – Jan 2022*

Software Development and System Integration — Git, Bash, Linux, Full-Stack Engineering
